

A photograph of a golf course featuring a putting green with three white flags on black poles. To the left is a water hazard with a stone wall. The background is filled with dense tropical vegetation, including tall palm trees and other greenery. The sky is clear and blue.

PRO/GREEN[®]
SYNTHETIC TURF SYSTEMS

PG 4000

A short pile height turf that can be used for fully customizable putting greens, bocce ball courts, and other spaces needing an extra short yet durable turf. The stimp level can be controlled by the amount of infill used – the more infill, the higher the stimp level. PG 4000 utilizes slit-film fibers, making it extremely durable for all levels of activity.

PG 4000

 APPLICATIONS:	Residential Putting Area Commercial Putting Area Fringe Pool Surrounds Bocce Ball Courts
